American Fire Glass™ Fire Pit Burner Pan Covers.

Fire pit burner pan covers are used for covering and protecting fire pit pans when they are not in use.

All our fire pit burner pan covers are constructed from 304 stainless steel to ensure durability under extreme temperatures and weather conditions. Our burner pan covers are also guaranteed not to lose their color or to rust.

Available in several shapes sizes to suit your fire pit burner pan design.

INSTRUCTIONS –

USE:

1. Remove and inspect product for any damage.
2. Using the mounting screws provided. Attach the handle to pan cover top.
3. Place cover over burner pan and burner cover. Should lay flat at all four corners.

CARE:

1. Never place cover over hot burner and pan. Allow at least 30 to 45 minutes to cool before covering burner and pan.
2. To clean, use a quality stainless steel cleaner and a soft cloth. Be sure to wipe with the grain. Cleaning perpendicular to the grain or in a circular motion can drive dirt into the grain making it difficult to clean the material.
