A N D A L U S I A

Andalusia is the jewel of southern Spain. From its sparkling beaches to its snow-covered Sierra Nevada mountain range, there is a seemingly endless ribbon of winding roads flanked by farmland abundant with orchards of olives, citrus and fields of sunflowers. It is widely known for its beauty, charm, music and romance. It is the home of the famous Andalusian stallions and the birthplace of Flamenco dancing.

This collection was inspired by the rich cultural heritage of the Andalusia region, particularly the Moors and their handsome grillwork windows and wrought iron balustrades and gates. Equally evident is the seafaring influence of billowing sails from a location that is the nexus of oceanic exploration.

This region's rich culture, architecture and art make it a Mecca of style. Its proximity to Africa, Italy and France make it a cultural melting pot. The relaxed pace and nearly perfect climate make it a utopia for inspiration. Andalusia was the setting for Mozart's "Don Giovanni" and "The Marriage of Figaro." Bizet's "Carmen," and Rossini's "Barber of Seville." This was the muse for Cervantes "Don Quixote" where windmills still dot the landscape.

SAILCLOTH FABRICS

Recommended for all outdoor collections

Sailcloth - Sail
17000-29

Sailcloth - Shell
17000-12

Sailcloth - Sand
17000-21

Sailcloth - Shore
17000-23

Design Elements:

- Authentic Spanish-Mediterranean styling. Saber detailing with decorative fob accents featured on all pieces. Functional and attractive chaise canopy adds a sense of royalty. Sling fabric back is swagged into gondola-style design with decorative trim details.
- Hand-made, sand-cast, aluminum frames with fully welded, ground and polished joinery have the look of wrought iron.
- Built and finished like quality indoor furniture, but designed for the rigors of full-time outdoor exposure with routine maintenance. Finished with a durable, weather-resistant, multi-step antique powder coat. In fact, it will look as good in your living room as on your verandah.
- Generously proportioned and scaled for a luxurious experience. Plush, oversized cushions on all seating. Each cushion is crafted with densified polyester fiber that is waterproof and meets CAL 117 flame retardant standards.
- A tasteful selection of fashionable, high performance fabrics woven from solution-dyed, UV stable acrylic fibers that resist fading, deterioration and mildew.
- Multiple and versatile product offerings for indoor or outdoor placement, include dining and bar height seating, lounge chair, ottoman, love seat, chaise lounge, dining and occasional tables.
- Travertine tabletops are crafted of a naturally porous sedimentary stone formed over millions of years by pressure exerted on layers of minerals beneath the earth's crust. Holes and crevices are formed by natural erosion from subterranean springs. The luxurious hue of these tabletops was chosen to complement the coloration of each finish in this collection. Travertine stone tops require only occasional cleaning and periodic application of a natural surface sealer.
- Cast stone tables are made from an amalgam of crushed limestone and resin. These tables have a natural ivory color textured appearance and smooth hand. These tables require only periodic cleaning.

Finish:

Cordoba

The collections of Richard Frinier for Century Leisure bring home the emotional experience and ambience of world travel. The look is fresh and memorable. Upon first view, these collections take you to a place where you have never been, yet you feel relaxed and at ease to linger.
