

# TEMPEST TORCH™

FIRE IN MOTION

TEMPEST  
TORCH™  
BY TRAVIS INDUSTRIES

**DECK POST INSTALLATION**  
(Posts have been wrapped in a wood base)

Breaking the barriers of standard torch design, Travis Industries proudly unveils the Tempest Torch™ - a dramatic decorative outdoor gas lamp. The patent pending Tempest Torch has an enchanting, spiraling flame dancing within the tempered glass walls. This natural venturi effect of fire is created without the use of electricity or a fan.

*The Electric 24V model has the miniturized gas valve built into the post. This model can be wired up to 445 feet from the transformer (See Owners Manual for details).*

*The manual light model features easy access control panel with Piezo igniter for easy lighting and high to low flame control.*

## PICK THE MODEL THAT BEST MEETS YOUR NEEDS

### ELECTRONIC 24V MODEL

Electric 24V torches can be used with a light switch, remote control, programmable timer or wired into a SmartHome system. Available in NG and LP Models.

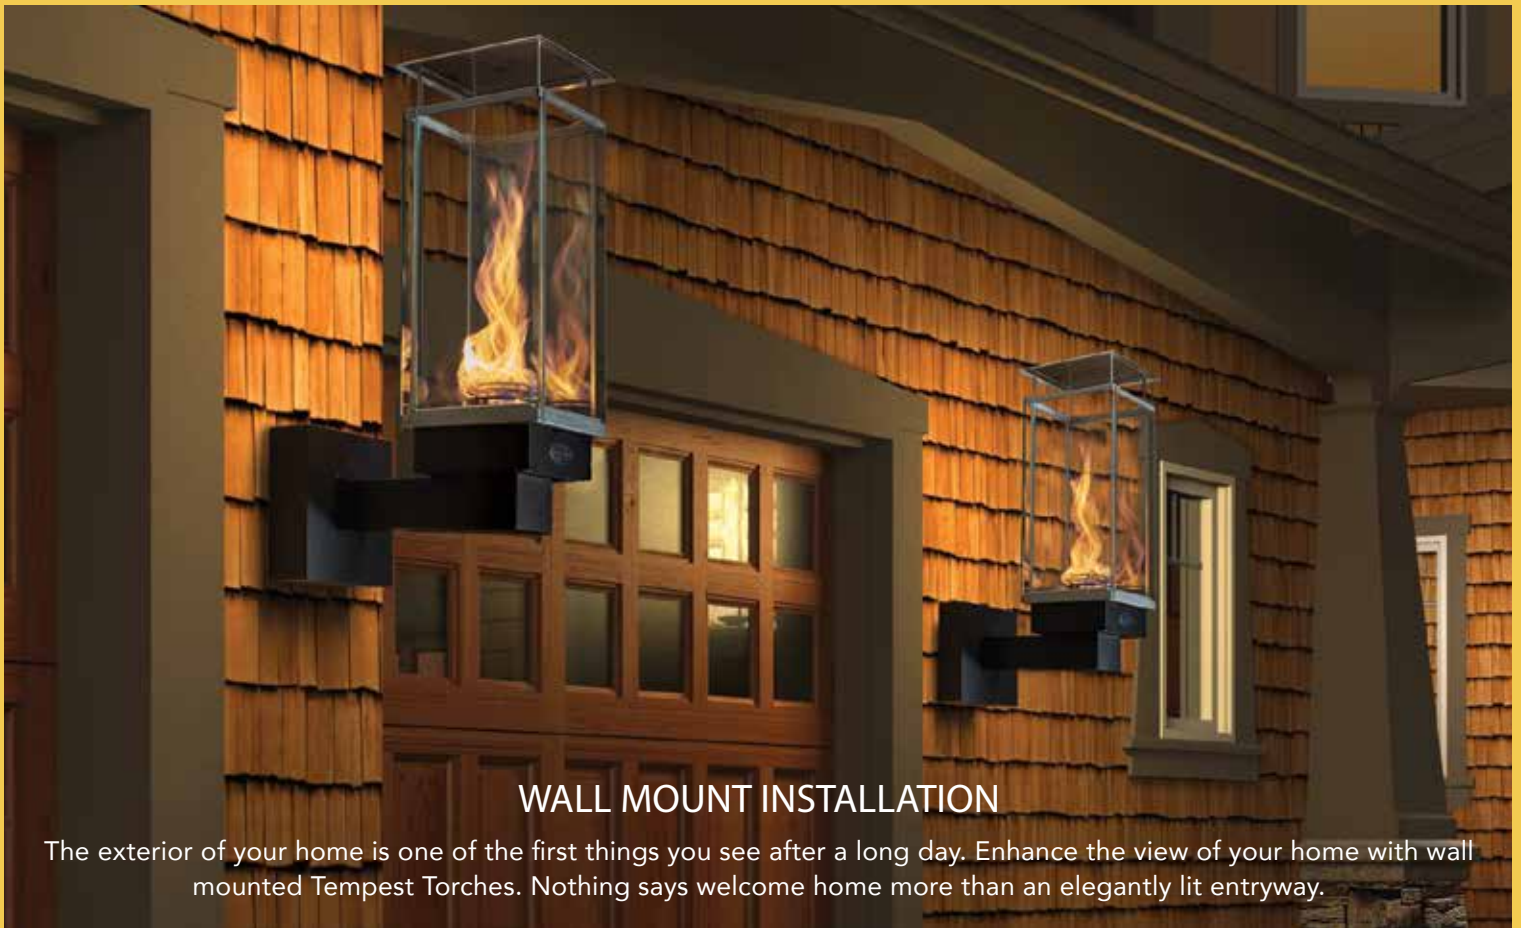

### PIEZO IGNITER MODEL

The manual light model works with a built-in Piezo igniter and easy access control panel. Available in NG and LP Models.

DECK POST & WALL MOUNT INSTALLATIONS

## WALL MOUNT INSTALLATION

The exterior of your home is one of the first things you see after a long day. Enhance the view of your home with wall mounted Tempest Torches. Nothing says welcome home more than an elegantly lit entryway.

## DECK POST MOUNT INSTALLATION

### FEATURES YOU'RE GOING TO LOVE

- The Tempest Torch™ can be installed in four different ways:
  - Ground Post
  - Deck Post
  - Pillar Mount
  - Wall Mount
- The Tempest Torch™ has an automatic gas shut off if the flame goes out as an added safety feature.
- Optional removable rain cap included.
- Tempered glass panels are easy to remove for cleaning and service.
- Durable stainless steel frame and burner.
- Natural Gas and Propane models.

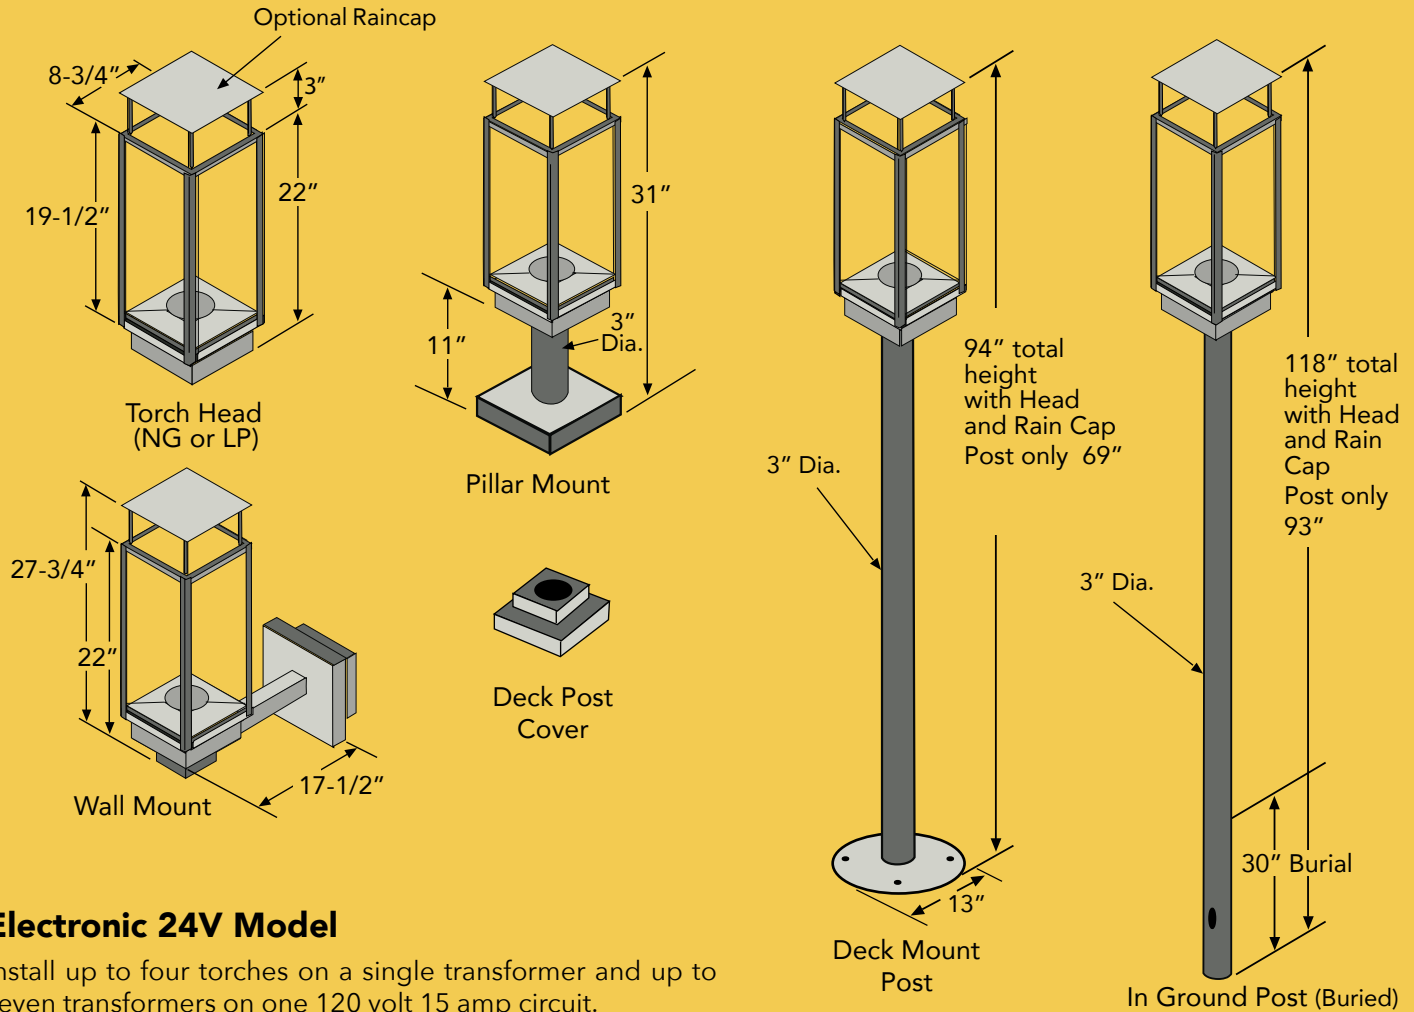

## GROUND POST INSTALLATION

Created as a decorative outdoor furnishing for a wide array of exterior settings and applications, the Tempest Torch is designed to be the ultimate in lighting enhancement. The display possibilities are nearly endless: outdoor living spaces, retail or business store fronts, front walkways and lighting pool areas.

# TEMPEST TORCH™

BY TRAVIS INDUSTRIES

## Electronic 24V Model

Install up to four torches on a single transformer and up to seven transformers on one 120 volt 15 amp circuit.

## Minimum Clearances To Combustibles

Floor: 2.5" combustible floor to bottom (base) of torch

Walls: 8" measured from glass surface

Ceiling: 26" measured from the torch top (glass frame) with or without the raincap. (Refer to the Owner's Manual for further details)

## Gas Rating

	NG	LP
Btus/Hr High	20,000	20,000
Btus/Hr Low	14,000	17,000

## Testing

Applicable portions of ANSI Z21.42a-2004 "Illuminating Appliances", CAN 1-2.15, CSA 4.96 U.S. (3rd Ed) "Outdoor Gas Fireplace", and AGA 8-96, "Requirement for Gas-Fired Decorative Illuminating Appliances for Outdoor Installation."

## FOR YOUR SAFETY:

FOR OUTDOOR INSTALLATION ONLY!

Do not store or use gasoline or other flammable vapors and liquids in the vicinity of this or any other appliance.

## WARNING:

Improper installation, adjustment, alteration, service or maintenance can cause injury or property damage. Refer to the owner's information manual provided with this appliance. For assistance or additional information consult a qualified installer, service agency or the gas supplier.
